- 2 Platform
- 3 CISW MARKET collects every product with FDA both domestically and internationally for export and promote around the world
- 4 One-step service for export

WWW.CISW.MARKET.COM

CISW MARKET was established by CISW International Co., Ltd. in addition to the main purpose of organizing herbal events. As a well-known brand of CISW, we offer good herbal products. Today, herbs are used as raw materials for production such as industrial, cosmetics, herbal supplements. Therefore, the herbal market is a market that is growing continuously.

The export market that consumes medicinal herbs includes Japan, China, America, etc. The consumption of the new generation who prefers to use herbs increases the value of herbal products as an alternative to health care which is considered safe and comes from nature including government policies that encourage those involved in the herbal industry through the Master Plan on the Development of Thai Herbs, 2017-2021.

B2C :

Business Owner-to-Consumer Selling

B2C or Business-to-Customer Selling products from business owners to consumers which are selling products in the form of an online store that receives products from the manufacturers and sells them for customers to come and buy as they like an obvious example is convenience store Shop for various products, including opening a shop selling products on an online platform.

B2B :

Business Owner-to-Business Sales

B2B or Business-to-Business Business Owner to Business Owner Both the production of goods and services to be delivered to the business owner for further use, for example, the factory produces products for sale to wholesalers.

Internet service for use in the office and online store management platform that makes it easier for online stores to manage their stores.

B2B2C :

Business Owner-to-Business and Owner-to-Consumer sales

B2B2C or Business-to-Business-to-Customer Business owner-to-owner business allows business owners to sell products to consumers. It is a business model that combines both buyers and sellers on the same platform. The business that owns the platform will act as an intermediary that brings business owners and consumers together. For example, Marketplace platforms like Lazada, Shopee, and Amazon combine well-known business brands to open their stores through.
