

# CISW Global Organization

## 1. CISW Global MISSION AND VISION STATEMENTS

CISW Global mission statement is “the centralization of international cannabis in the world to support the life improvement for humankind.” Eradicating conflicts across the globe is the pivotal duty of this organization. Its focus on this area is because it seeks to:

1. To educate mankind to acknowledge about a cannabis utility around the world.
2. To stop suffering of illness for mankind by the medical cannabis and hemp industry around the world.

The main reason for the establishment of *CISW is the Non-Governmental Organization (NGO)* to stop suffering of illness for mankind by the medical cannabis and hemp industry.

Moreover, CISW Global is a service and solution provider, a technical advisor and an implementer of projects about cannabis. We help the cannabis organizations around the world and other partners provide peace and security, humanitarian and development solutions by cannabis.

## 2.VISION STATEMENT

CISW Global vision statement is the world people can live full lives supported by appropriate, sustainable, and resilient infrastructure by the efficient, transparent use of cannabis.

## 3.Our mission

Our mission is to assist people in build better lives and countries achieve quality of life and sustainable development by cannabis.

## 4. Our purpose

We assist people in build better lives and countries achieve quality of life and sustainable development by cannabis.

We bring to this task the values and principles of the utility of cannabis and the innovation and efficiency of a raising fund.

We bring the highest international cannabis standards to what we do, while respecting local contexts. We do this as our contribution to confront the huge challenges of the 21st century.

We provide practical utility of cannabis to assist our partners to save lives, protect people and their rights, and to build a better world for mankind to have better quality of life.

We aspire to be a leader of cannabis organization in the efforts to channel private sector investments for social and environmental impact while addressing the immense needs for sustainable development.

What drives us is a passion to fight inequalities and to provide opportunities to those most vulnerable. This means we often work in the most challenging environments,

building foundations for communities to function and people to live with dignity and respect.

## 5. Our Value

### 5.1 Partner and Coordination

CISW Global aims to engage in collaborative partnerships with a focus on sharing our expertise about cannabis in education, research and development, treatment and medical utility and financial support.

We work with a variety of partners, from the UN system to governments, non-governmental organizations, academia and private sector organizations.

## 5.2 Excellence

Organizational excellence, like sustainable development, is not a destination.

It is a journey in which knowledge and technology are adapted continuously, and multiple interests, components and efforts come together to achieve better outcomes.

Excellence is what drives us. We believe that continuously improving our knowledge, skills and processes leads to the best possible results for communities in need.

## 5.3 Accountability

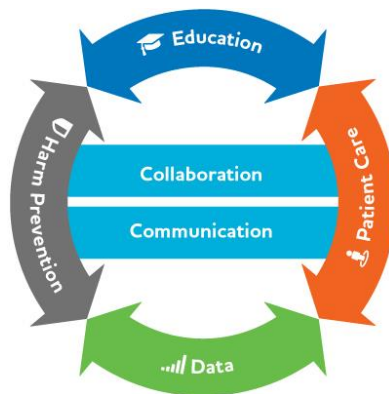

Access to high quality, timely and relevant data leads to better decision-making about aspects of cannabis, which in turn increases the effectiveness of development funds.

Improving transparency about cannabis also helps governments in developing countries manage aid more effectively.

## 6. CISW Global Strategy

*A Cannabis Strategy for the world: Enhancing Knowledge, Protecting Patients around the world*

At the Board meeting, the Board endorsed the strategy. It consists of 3 priorities, which together through effective communication and collaboration, will protect the public's interest in the world.

- Developing and maintaining competency

Key goal: CISW Global will educate on the use of cannabis for medical or recreational purposes, the benefits and risks of cannabis, and the potential interactions of cannabis with medications and health conditions around the world

- Providing patient care, health information and advice

Key goal: CISW Global will create knowledge and skills to provide information and advice to patients around the world that considers the efficacy, benefits and risks of cannabis, and its interaction with medications, other treatments, and health conditions.

- Preventing harm

Key goal: CISW Global will engage in supporting patients in accessing appropriate health services and applying harm prevention strategies in collaboration with regulated healthcare professionals and public health stakeholders around the world.
